

اسم المجلة الناشرة	اسماء البحوث المنشورة	اسماء الباحثين	ت
IJECET	1 -"Design & Implementation Of A Multiprocessors Telephone Exchange"	م.د. يمان اسماعيل مجيد	١
IJCA	2- "Fast Detection Process For Downlink In LTE Net Work"		
IJCA	1-"channel estimation enhancement in DFDM system based on time domain interpolation"	م.م. مهدي عبدالهادي محمد علي	٢-
IJCA	2- "MJMO-OFDM with enhanced channel estimation based on DFT interpolation"		
مجلة الهندسة	"PAPR reduction of OFDM signals using clipping and coding"	م.محمد قاسم محمد	٣-
INTJ Of Computer Application	1-"Movement Prediction Using Reservoir Computing "	م.م. سليمان مرتضى عباس	٤-
INTJ Of Computer Application	2- "Reservoir Computing: Size And Connectivity Using Work Algorthem"		
INTJ Of Computer Application	3-"Time Series Prediction Using Multiwavelet Transform And Echo State Network"		
INTJ Of Computer Application	4-"A Proposed Off-Line Dvs Approach For Minimizing Power Consumption Accepted For Publication"		

Journal of engineering	1-"Design And Implementation Of Multiplier Free FPGA Based OFDM Transmitter"	أ.م. عدي عبد اللطيف عبد الرضا	٥-
International journal of computer application	2-"FPGA Implementation Of Multistage Knapsack Public Key Cryptosystem"		
International journal of computer application	3-"Performance Estimation Of N-Bit Classified Adders"		
International journal of computer application	4-"A Comprehensive Study Of Smart Grids"
